

# Sprint 2 Planning

**Date:** Sep 27, 2021

**Time:** 5 pm - 6:00 pm

**Attendees:**

## Attendees

- [PRIYANKA SHIVAMPETHA](#)
- @shujin zang
- @zenan
- @Yinghao

## Agenda Items

1. Discussed what we have developed during sprint 1.

Whether all the requirements from the client for sprint 1 are finished?

Do we have any thing left from sprint 1 which we want to finish for sprint2?

Discussed and shared everyone experiences of sprint1

Meeting with the client and showing the product which we have developed and ask for any updated requirements

Based on after meeting with client and gathering requirements from the client should break down all the tasks.

checking the availability of each team member and allocating the tasks to team members.

## Action Items:

S.no	
1	Design and coding user interface.
2	load response from backend server
3	develop button functions when user clicks with animation of the sprite move
